ACKNOWLEDGEMENT

We, the developer of a Resume Maker, with immense pleasure and commitment would like to present the project assignment. The development of this project has given us wide opportunity to think, implement and interact with various aspects of management skills as well as the new emerging technologies.

Every work that one completes successfully stands on the constant encouragement, good will and support of the people around. I hereby avail this opportunity to express my gratitude to number of people who extended their valuable time, full support and cooperation in developing the project.

I would also like to thank my mentor Prof. Aishwarya Bhudrani and Prof. Chandrashekhar Pawar for their guidelines throughout the development phase of the resume maker. They helped us, whenever we stuck in this project.

Thanks,

Prof. Aishwarya Bhudrani

Prof. Chandrashekhar Pawar

ABSTRACT

A resume is a document that contains a summary or listing of relevant job experience and education. The résumé or CV is typically the first item that a potential employer encounters regarding the job seeker and is typically used to screen applicants, often followed by an interview, when seeking employment. In the job search process, a well-written and well-designed résumé is essential. So, by keeping in mind , we created Resume Maker. In this Resume Maker, we had keep all the basic facilities which required to every users or need to be their in every resume. From this Resume Maker, user can save their time and also it is very simple , easy conveying and safe. Users every data will be secure. This resume maker is very helpful because every users do not need to worry about their field and their final PDF format. So, to complete this task Diptiba Jadeja 19DCS041, Banthia Durva 19DCS006 and Khushi Chauhan 19DCS017 collaborated to complete this task under the guidance of Prof. Aishwarya Bhudrani and Prof. Chandrashekhar Pawar. The following report provides details about your project.

CHAPTER 1: PROJECT DEFINITION

1.1 PROJECT OVERVIEW

It is an application that simplifies the task of creating a resume for individuals. The system is flexible to be used and reduces the need of thinking and designing an appropriate resume according to qualifications. The system is developed to provide an easy means for creating a professional looking resume. Individuals just have to fill up a form that specifies questions from all required fields such as personal questions, educational, qualities, interest, skills and so on. The answers provided by the users are stored and the system automatically generates a well structured resume.

1.2 OBJECTIVE

Resume Builder application provides you readymade resume templates . To create curriculum vitae (cv resume) you do not need to worry what information to put etc, just enter the information and forget about the formatting.

1.3 SCOPE

- You can make good first impression in future by making your resume attractive.
- Many people are not good at designing so they can use resume maker and can get readymade resume.
- For different field there are different resume format so one don't have to worry about your resume format and field.

CHAPTER 2: DESCRIPTION

Description:

Our project name is Resume Maker. This project is about the people who want their resume in perfect format. This is very simple and easy for all users to use and understand by just opening this website only. We provide users different fields resume available on this project. By using this resume maker they don't have worry at all because we had provide many facilities in it. By using this resume maker they even don't need to worry about time consumption also because users will get their resume in perfect format in very less time. So users don't need to worry about resume anything , just they had to take this resume and give where they are going to apply for their jobs. Our project does the thinking and writing for you. In today's scenario, a perfect resume is need of every users. So we had made a website for users to make their resume online in a easy manner. Through this Resume Maker, users can make their good first impression. It provides a more interesting and convenient way for people, one get their resume by sitting at home only. In this users have to enter their details and they will get their resume in PDF format. The experiment results show that the Resume Maker can work efficiently. So users just have to do is to select their field and just have to enter their every single details which they want to print on their resume. And then they had to just download their resume in PDF form and in perfect format. And if they will able to download unlimited resume in our project. So if you had entered wrong information then you can change in your filled details and again downloaded it. In this way you will get your finally perfect formatted resume at home.

In this resume, firstly users are on main page. And they have to choose their fields according to their requirements and they will directly redirected to other page in which users have to fill their details and then click on the submit button. When users click on submit button their datd will save into the MySQL datadbase and then using PHP and MySQL their resume will be generated and it will automatically downloaded in their device. In this way, our projects works.

CHAPTER 3: SOFTWARE AND HARDWARE

3.1 SOFTWARE REQUIREMENTS

- PHP Server : XAMPP -
- Sublime Text Editor
- Google Chrome
- Canva
- MySQL Database – For managing data entered by the user.

3.2 USER CHARACTERISTICS

This application is designed for all users. This application is very easy understandable.

So, all the users are able to use this application.

CHAPTER 4: MAJOR FUNCTIONALITY

Functionality:

In our project, to create a resume user need to choose their relevant fields and user need to enter their data like personal information ,education ,experience, skills, project and award and then by clicking the submit button user gets their resume PDF . In this way, Our projects works to provide resume easily. So , it is functioned to provide resume.

CHAPTER 7: LIMITATIONS OF THE PROJECT

LIMITATIONS:

- In this system we haven't provided different format of resume yet
- In this project we have not added fields other then Engineering, Medical and Management.

CHAPTER 8: PROJECT OUTCOMES

OUTCOMES:

- Resume Maker should be easy to understandable and easily operatable by users.
- They don't have to put efforts.
- It will consume less time.
- They don't need to worry about final format designing.
- Reduces tedious work in thinking and creating resume and is convenient for users.

CHAPTER 9: FUTURE ENHANCEMENT

FUTURE ENHANCEMENT:

In future,

- we are thinking to provide different format option so user can choose their resume format.
- we are thinking to provide different fields so user with different field can also use it.
- we are thinking to provide better user interface so, user can work more efficiently.
